

START

Turn right to avoid bumping into the coral.

Oh no, you broke the coral!

Corals are fragile and easily damaged when knocked by vessels and snorkelers.

WINNER!

Thank you for exploring the reef responsibly!

Anchors can damage coral, use moorings where available

Line jump left to avoid fishing in a Green Zone.

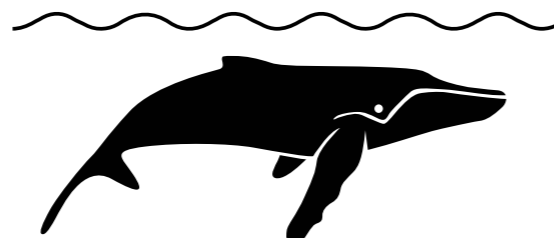

Do a cool move to maneuver your boat to a mooring.

Protect whales by keeping safe distances and speeds.

Whales are in the area, slow down your speed to avoid them.

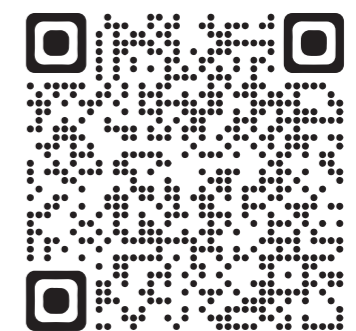

Litter can harm marine life, use nitro boost to pick it up.

GREEN ZONE NO FISHING

Green Zones help protect marine life.

Thank you for keeping our reef, litter free.
