FACILITATING INDUSTRY AND SCHOOL CONNECTIONS: SHAPE THE FUTURE OF STEM!

Questacon STEM Futures offers a unique, free professional development program designed to elevate STEM education by empowering teachers, supporting school leaders, and building connections between schools and their local communities.

A key component of the program is fostering strong, impactful connections between industry and schools. Working together can bring real-world STEM into classrooms, inspire educators and the next generation of innovators, and ensure a thriving STEM future for both industry and education.

HOW CAN INDUSTRY SUPPORT STEM EDUCATION IN SCHOOLS?

- Provide access to tech & tools
- Host workshops & events
- Offer internships & mentorships
- Provide education programs
- Collaborate on curriculum delivery
- Facilitate Industry visits & field trips
- Sponsor competitions
- Support teacher professional learning & development
- Provide funding & resources
- Join STEM advisory councils
