

Learn about the Great Barrier Reef through our education programs and resources.

Reef Guardian School Program

The Reef Guardian School Program enables the next generation of young leaders to become stewards of the Reef, by understanding the threats to its sustainable future, and their role in protecting it. Reef Guardians care and undertake positive actions within their school and local community that contribute to Reef protection and resilience. To learn more, share achievements on a global scale, access free Reef education resources, and to register your school, visit the Reef Guardian School Portal. For further information contact: reefguardians@gbmpa.gov.au

Edu tourism

Immerse your students in a Great Barrier Reef study abroad program. We offer faculty-led, experiential learning opportunities which allow students to meet and interact with Marine Park experts responsible for managing one of the world's largest marine protected areas. Students develop an understanding of the Great Barrier Reef ecosystem and the animals and plants that call it home. To book your next national or international student study tour group, email your details to: education@gbrmpa.gov.au

Eye on the Reef: Sightings and Rapid Monitoring

Our Eye on the Reef monitoring and assessment program enables anyone who visits the Great Barrier Reef to contribute to its long-term protection. By collecting valuable information about reef health, marine animals, and incidents you can help us understand the bigger picture and inform how we manage the Reef. For further information contact: eyeonthereef@gbrmpa.gov.au
