

Do you talk about environmental topics at home,
have children aged between 8 – 12 years,
live in Bundaberg or Townsville,
& love the Great Barrier Reef?

In my PhD project, I am investigating how families living on the GBR talk at home, experience and feel about environmental topics.

In this first project part, I would like to invite parents to participate in an interview to share their experiences and perceptions about environmental talks within their family. Further possibilities for participation of the whole family, incl. your children, will follow!

Interviews are possible
online anytime or in
person in the following
weeks:

Bundaberg:
18th – 23th August
Townsville:
24th – 29th August

Are you interested in
sharing how you
experience
environmental talk with
your family at home?
Then get in touch by e-
mail or through the
website.

Hi, my name is Sharlene and I am a PhD student at the University of Queensland. Get in touch!
